REGISTRATION RULES QUIZ GUIDE FOR FBV 21-22

INTRODUCTION:

Teams intending to participate at the Virtuals at Formula Bharat 21-22 (FBV 21-22) will have to prepare for a Rules Quiz, post pre-registration. The pre-registration form must be submitted and the down-payment must be made by July 8 in order for the team to receive all quiz details.

The Pre-Registration form, and Registration and Payment Guide is available on www.formulabharat.com/virtuals.

QUIZ CONTENT

The questions for the quiz shall be taken directly from the following sources:
- FBV Information Rules Booklet (except C.3 Virtual Dynamics)
- Formula Bharat 2022 Rules Booklet, specifically the sections
  - [T] General Technical Requirements
  - [CV] Combustion Vehicles or [EV] Electric Vehicles (depending on the class of the team)

Each class - Combustion and Electric - shall have their own quiz. Only material applicable to the specific class shall be presented in the Quiz.

Teams registering for the Electric Class will also have to review content from the document 'EV Safety Awareness Training' available under the 10_EV Only folder within the Formula Bharat Downloads folder (www.formulabharat.com/downloads) on Google Drive.

There will be no calculation-related questions.

QUIZ LOGIN

Each team will be assigned to three user logins (i.e. three usernames). These email addresses refer to those of the Team Captain's, Additional Contact 1 and Additional Contact 2, received and approved at pre-registration.

The above email addresses for each pre-registered team will receive an email by Thursday, July 8 (before end of day) with a 'Username' and 'Password' as the quiz login details. Additionally, the link to the quiz will be provided as well.

Seeded entry teams will be provided a login as well. However it is optional for them to participate. The seeded entry result will not affect their participation in the event or their pre-assigned car #.

The quiz for the Combustion class shall open at 7:00 PM IST on Saturday, July 10, and the quiz for the Electric class shall open at 7:30 PM IST on the same date. Teams must complete the quiz before 9:00 PM IST.

Note: Multiple logins with the same 'Username' may result in a log-out during an active quiz attempt. Hence it is strongly advised to login in at the beginning of a quiz attempt only.
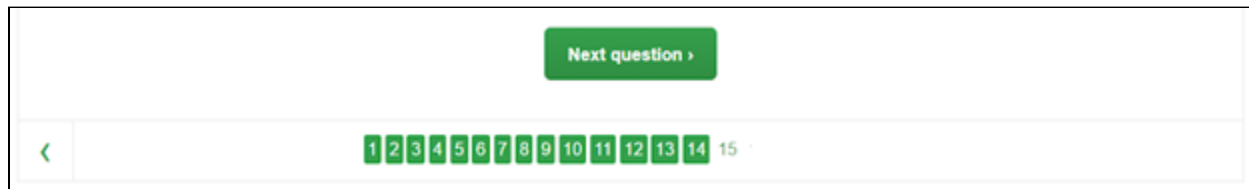

QUIZ TYPE AND METHOD

The quiz must be attempted on Google Chrome on a desktop, for best functionality. However do note that the platform is known to be responsive on mobile devices as well.
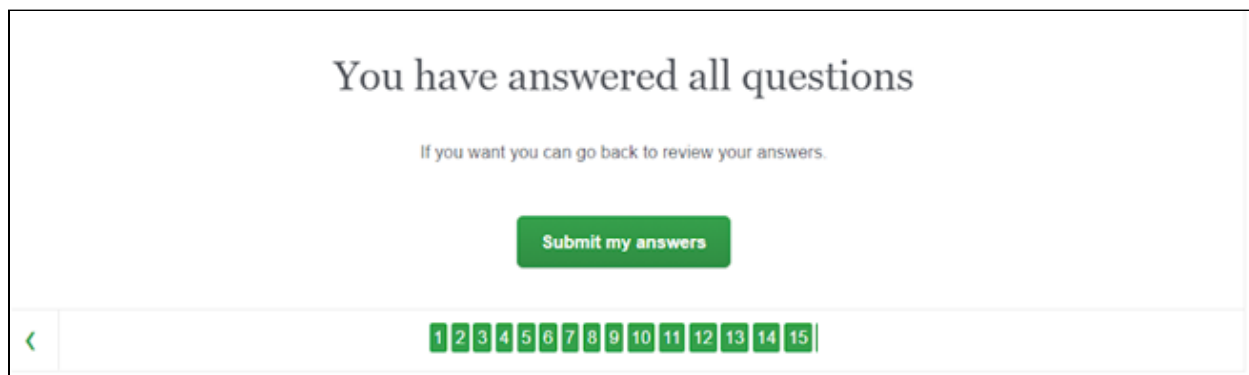

(For each class) Fifteen (15) questions will be presented in multiple choice format. These questions are taken at random from a Question Bank of maximum 20 questions. There is no time limit during the quiz duration. There is only one correct answer per question.

During the quiz, there will be opportunities to return to the earlier questions that you were unsure of, before submitting the quiz. *Click on any of the completed question numbers to return to that question. You will not lose your pre-filled answers for the other questions solved.*

In the case that you are logged out during the quiz, when you login again, you will have the option to 'Continue your test' and begin where you last left out from.

Once all the questions are attempted, you will land on a page with the following button "Submit my answers". You must click that in order to submit and receive your result.

Once the quiz is submitted, it will be considered as an attempt. An indication for pass (100%) or fail (99% or less) will be made. If 'passed', the quiz need not be attempted again. If 'failed', a button will be present to return to the quiz and login again.

Scenario 1

The following is your result for the registration quiz.

You have completed the exam. You have scored 10.00 out of 15.00 points.

Failed

Passed? Click here.   Failed? Try again.

Scenario 2

The following is your result for the registration quiz.

You have completed the exam. You have scored 15.00 out of 15.00 points.

Passed

Passed? Click here.   Failed? Try again.

During each attempt, the order of questions will be random.

All questions must be answered correctly in order to successfully pass and meet the chance of entering the registered list for the respective class at Formula Bharat 2021.

Each Username has a total of 3 attempts to answer all 15 questions correctly. The first pass achieved by any of the usernames of a team on any of their attempts, will be considered in the final result.

After one username has exhausted all its 3 attempts without a single pass, that username will no longer be allowed to attempt the quiz further. After all usernames have exhausted each of its 3 attempts without a single pass, your team will be moved to the waitlist.

In this year's quiz, the scenario allows for 3 usernames to attempt the rules quiz at the same time (remember, each attempt by each username is a unique order of questions and list of questions). Your team can also choose another scenario / strategy, where you consider that your team has a total of 9 attempts (3 total attempts per user name).

RANKING AND CAR NUMBER

Quiz time to complete i.e from time of quiz opening (i.e. 7 PM IST for combustion teams and 7:30 PM IST for electric teams) to the time of quiz successful submission will determine ranking (starting from 1 indicating the fastest), however will not guarantee spot within the registered list. Your team's first pass attempt amongst any of the usernames will be taken into the ranking list.

Car numbers for each class shall be assigned as per order of ranking.

Official Ranking will be released by 11:00 PM IST on July 10.

Note: We may display live scoring online. Until the official ranking is released, please do not post your unofficial rank on social media. Please wait until the designated time to do so.

QUIZ TIPS AND NOTES

- It is important for teams to have a back-up plan for any circumstance
  - Poor-Wifi / Internet Connection
  - Electricity failure / Blackouts
  - Computer restarts due to software updates
  - Poor weather conditions etc.
- **Take your time when attempting the quiz.** Read each question and the provided options thoroughly.
- This is an open book quiz, in an environment of your choice. You may attempt the quiz solo, or in a team, with the rule book softcopy opened on multiple screens and / or with a hardcopy available. Plan accordingly for what will work best for you.
- You may take a screenshot of your result as proof, in case discrepancy arises.
- Multiple logins with the same 'Username' may result in a log-out during an active quiz attempt. Hence it is strongly advised to login in at the beginning of a quiz attempt only.

MOCK QUIZ

A mock quiz will be made available on July 3. Each registered email address (i.e. username) will receive a maximum of 2 attempts to participate in the quiz. The mock quiz will close on July 4 morning.

The purpose of the mock quiz is for:
- Teams to ensure that their registered email addresses are receiving quiz information.
- Provide a walk through to how the quiz will be conducted.
- Provide an idea of the questions that will be showcased in the official quiz.
